

V-Learning Testing Liquid Fuel Measuring Instruments

Session Date & Time: Tuesday 7th December 2021
10.00 to 11.30

Objectives: To understand how to verify, reverify and inspect liquid fuel measuring instruments

Tutor: Iain Hoey

Iain is a Principal Trading Standards Officer and a Lead Officer and Examiner for Legal Metrology for CTSI

Programme:

The session will cover the following areas:

- Approved manufacturers/verifiers
- Verification paperwork
- Health and safety
- Verification tests including Standard Temperature Accounting
- Issues found on inspection

There will be plenty of time for you to ask questions and you are also welcome to submit these in advance.

CPD Hours: 1.5 hours

Who should attend?

This session is aimed at qualified officers looking to refresh their knowledge and would also be useful for students looking to take the Weights and Measures exams.

Fee & Booking: £35 plus VAT per delegate

Use our [V-Learning booking form](#)

What is V-Learning?

V-Learning gives you access to some of the UK's top experts in their subject areas. The session will be delivered using Microsoft Teams, so you will be able to see and hear the presenter as well as them sharing their presentation with you.

No travelling costs and a real practical focus on the law makes this training incredible value for the individual learner and their employer. By limiting numbers we can allow you time to ask questions, both in advance and during the training.

What our customers say about Iain's training

I found this session really useful as I have very little involvement with metrology

The course was extremely valuable. I am a metrology student and attending hands on practical courses which give this sort of training is proving difficult

Great subject knowledge demonstrated by Iain

The notes are excellent

Check on our website www.stonelytraining.co.uk for the full V-Learning programme.
